

Quality Tools for Smart Cleaning

## PRESS RELEASE

### Award-winning!

**Intuitive erGO! clean floor cleaning system from UNGER wins PLUS X Award for "Best Product of the Year 2022"**

**Solingen, 2 May 2022. Not only does the innovative erGO! clean floor cleaning system from UNGER score points for its functionality, it is also ergonomic and well designed – this was the opinion of the PLUS X Award jury, who chose it as the Best Product of the Year 2022.**

In order to win the prestigious PLUS X Award title, UNGER made its ultra-fast floor cleaning system available for a multi-stage evaluation process. The task was to convince a jury of experts in the categories of innovation, high quality, design, functionality, ease of use, ergonomics and ecology. The erGO! clean system impressed in no less than four areas, and also secured the coveted "Best Product of the Year 2022" quality seal.

### Ergonomics meets innovation

Anyone who has had the chance to try out the innovative cleaning tool will agree with the jury, because never before has it been so easy and straightforward to carry out cleaning work without disrupting operation. "We are extremely proud of winning the 'Best Product of the Year 2022' award," says Dietmar Bernstein, Director of Product Management at UNGER. "We developed erGO! clean because standard floor cleaning tools often cause pain in the back and neck area, mostly triggered by continuous bending. However, the erGO! clean's replaceable water tank eliminates the need to carry heavy buckets. The telescopic handle also adapts to different body sizes, while the S-shape supports the cleaning movement so that only minimal effort is required. Furthermore, the precise dosing mechanism enables fast, clean working methods."

### The "Best Product of the Year" quality seal from the Plus X Award

The PLUS X Award honours brands for the quality and innovative edge of their products, and is considered the world's largest innovation award for technology, sports and lifestyle. The award's approach is unique, because unlike many of its competitors, the PLUS X takes a more differentiated approach with its expert jury of various industry representatives and its seven quality seals. The award stands unmistakably for brand quality.

"As providers of professional cleaning tools, user feedback is enormously important to us," emphasises Dietmar Bernstein. "The fact that we are now receiving positive confirmation from

Quality Tools for Smart Cleaning

experts motivates us all the more and shows that we can make the challenges of everyday work considerably easier thanks to our innovative products."

## **About UNGER**

UNGER is a leading international manufacturer of professional cleaning and care tools. All UNGER systems are designed to make cleaning work efficient, ergonomic and thorough. The wide range of products includes professional pure water cleaning systems, a comprehensive range of glass cleaning products, floor cleaning and care systems, a colour-coded surface cleaning system, and a cleaning system for sanitary rooms. In addition to the highest quality requirements and innovative product development, UNGER offers outstanding customer service. The company, founded in Hamburg in 1964, has headquarters in Solingen (Germany) and Connecticut (USA). The growing global business is driven by retail partners in over 80 countries.
