Quality Tools for Smart Cleaning

EVERYTHING UNDER CONTROL FOR ERGONOMIC WORK

An **UNGER** bucket is an essential accessory for professional glass and window cleaning. Our classic, rectangular bucket has been upgraded with many practical details to make everyday work easier. The bucket has a capacity of **12 litres** and its narrow, **compact design** provides plenty of room for those important tools. **Two shelves** also let you safely store your washer and window squeegee. The new, **ergonomic handle with vertical positioning** is a particularly great new feature. It is practical, can be cleverly fixed in place and doesn't fold up unintentionally.
