The new S-Class!

Feel the intuitive motion.

NEW available from
October 2017

Quality Tools for Smart Cleaning

Discover the intuitive S-shape motion with minimal effort: the ultrafast **erGO! clean** floor cleaning system.

Cleaning work is generally done under enormous time pressure, is strenuous and laborious. 40 % of all employees* in the cleaning industry complain about back and neck pains. The triggers for this are frequent bending down, carrying heavy buckets and the poor ergonomics of standard cleaning tools.

Dirt and contamination can quickly be caused by minor mishaps in day-to-day business life. A drink spilled on the floor does not create a good impression and in the worst-case scenario, if someone stands in it, it may well be spread elsewhere. Precious time passes before the cleaning staff can get their cleaning tools together and be on-site.

But the new **UNGER erGO! clean** – being fast, ergonomic and professional – will put an end to this.

Traditional cleaning systems often lead to the backs, shoulders and joints of cleaners being put under extreme strain.

The ergonomic **erGO! clean** floor cleaning system, reduces the load placed upon backs, shoulders and joints.

erGO! clean

READY-TO-GO AT ANY TIME AND ANYWHERE

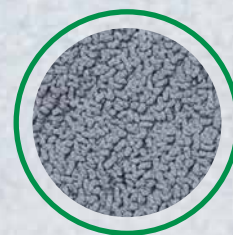

- Ready-to-use immediately
- No lengthy preparation, such as filling buckets, required
- Cleaning chemicals can be replaced in a matter of seconds

A TOP-QUALITY PROFESSIONAL TOOL

- First-class materials guaranteeing a long service life
- Robust tool for long-term use
- Sophisticated product design for intuitive handling

INCREASED PRODUCTIVITY WITH FATIGUE-FREE WORK

- Reduces the extreme strain placed upon employees and prevents work-related musculoskeletal diseases
- No lifting and carrying of heavy buckets
- Significantly less effort required for use
